

Clean Version of Amendments.

IN THE SPECIFICATION:

On page 2, at line 1, please insert the following paragraph:

This application is a continuation of co-pending U.S. Patent Application Serial No. 09/374,336, now U.S. Patent No. 6,280,050, filed August 13, 1999, entitled "FLEXIBLE FLASHLIGHT EXTENSION," which is hereby incorporated by reference herein in its entirety, including but not limited to those portions that specifically appear hereinafter.

IN THE CLAIMS:

Please amend the claims as indicated below, without prejudice:

1. (Once Amended) A flashlight extension that is flexible, comprising:  
a body having first and second end fittings separated by a length distance, said body comprising;  
a first member, forming an electrically conductive core;  
a second member, forming a substantially nonconductive barrier disposed generally concentrically with said first member;  
a third member, forming a conductive element, and being electrically isolated from said first member, and
